I learnt the basic features available in the environment, some of which consist of: 1. The Home Key: This is the first open feature seen once inside the environment as they house a new blank document. That is when a new document is created, the home keys are activated. Features found here include clipboard functions (cut, copy, paste), Fonts, Paragraph, Styles, 2. Insert Key: This feature

Maximum-Entropy Methods and the Bayesian Programme

Basic computational processes. The techniques involved in implementing the scheme just described fall naturally into three main categories. The first is concerned with the design of efficient sampling strategies for the generation of diverse hypotheses and with the book-keeping of that diversity (3.1).

US20040030854A1 - System and method for using a using ...

A system and method for using memory mapped I/O (MMIO) to manage system devices is provided. A parent device in the ACPI namespace uses (MMIO) to identify the memory addresses of its children devices. An existing, but unused, construct of ACPI is used to pass the MMIO information through the operating system (OS) to the device drivers, enabling
