[Governing in a Global World](#) captures the panorama of
women governing around the world. Even though the
modern era marks history's greatest advancements for
women, worldwide they hold fewer than 30 percent of
decision-making positions and are often missing from
negotiating tables where policies are made and conflicts
resolved.

[Governing Global Production | SpringerLink](#)

Abstract. This book has demonstrated how both states and firms contribute to the governance of global production. Despite the transnationality of global production networks, the emergence of these historically novel industrial systems does not imply a definite shift in the locus of economic governance from states to firms.
