This study examines the pioneering economic work by John Maynard Keynes, "The General Theory of Employment, Interest and Money", and attempts to explain, with constant reference to the original sources, the complexity of Keynes' theories and the critical response they evoked.

[TOPIC 14 THE KEYNESIAN REVOLUTION](#)

The Basic Keynesian Model The big question addressed by macroeconomic theory is deceptively simple, "What determines the level of national income?" This is an

important question because there is a close correlation, of course, between the level of national income and the well-being of the population.
