Top 11 Myths about mental illness - Shatter The Stigma ...

Myth #10: Mental illness is a single, rare disorder. Reality: Anxiety disorders, mood disorders, personality disorders, addiction disorders and impulse control disorders are all different categories of very different mental illnesses- each with its own features and underlying causes (common mental illnesses).

The Myth of Mental Illness by Thomas Szasz - Psychology

Sustained adherence to the myth of mental illness allows people to avoid facing this problem, believing that mental health, conceived as the absence of mental illness, automatically insures the making of right and safe choices in one's conduct of life. But the facts are all the other way. It is the making of good choices in life that others regard, retrospectively, as good mental health! The
