[Navigationnal Enterprises in Europe and its Empires, e ...](#)

Navigationnal Enterprises in Europe and its Empires, 1730-1850 brings together the work of international authors to explore European experiences in the development of new navigational techniques and instruments in the eighteenth and nineteenth centuries. This is the period in which the 'longitude problem' has been presented as being solved in an unproblematic way. Challenging this narrative, the book looks beyond just the British story to examine the role of governments, institutions, men of
